VII. PUBLIC WORKS REPORT

Alan Barton, Director of Public Works –City of Lawrenceville has almost finished putting in the gas line. They are repairing the yards and sidewalks that were torn up during the process. It looks like we got about 500 feet of brand new sidewalks which saved us a lot of money. Jimmy Parker from Precision Planning came over yesterday and we rode the roads, to see what needs to be repaired. He will let us know what the cost will be and how far our money will go towards that. We haven't started on the crosswalk yet due to staff vacations. We need to get the concrete put in first and then do the painting. We have got to get the drain pipe over in Magnolia where the sidewalk has caved in fixed also. Jimmy and I looked at that yesterday and we will get to all of that when the other concrete is poured. That is about all I have got for now.
