Thank Kevin for putting my name in nomination for Mayor Pro Temp. Education is very important to me. Education starts in the home and if we don't try to push this City forward, we will fall back. I promise this, I have done the best I can to keep myself educated. Some of that money comes out of my pocket. I have never asked this City to pay for my gasoline or my food. Nor do I intend to. With saying that I promise you that things will be different and changing down the road. We have to education every person we possibly can. I applaud the people that think I am doing a good job.
